VOYAGER™ GLX

VISTA 52"

TOP LEDGE/LEDGE COVER

8" ledge made to resist water and age:

- Polyvinyl coating a solid metal core
- Contemporary look from the ledge down to the foot cover
- Collar-lock engineering for safe, secure joints

WALL JOINT

- Computer-designed wall joint ensures better resistance to water pressure
- Oversized bolts augment stability
- A rippled finish lets the wall resist both water pressure and external shocks.

UPRIGHT/FOOT COVER

A plexi-coat finish protects sturdy 8" uprights:

- Created to stand up to weather and time
- Finish protects steel from untimely rust
- Classy foot cover provides ideal finishing touch

OVAL SYSTEM

Space Saver Uprights

- Less yard use for worry-free reinforcement
- Enjoy your pool without losing your yard

WALL

Vista

Make your backyard stand out with the Vista wall:

- Enhance your space with this gorgeous design
- Made with care by renowned style experts
- Enjoy a visual oasis in your own backyard

COATING

Corrosion protection on metal components:

- Metal components protected to last many seasons
- Vigorous coating procedures
- Superior process and the most reliable coating in the industry

WATER SAFETY

The purchase of an aboveground pool provides years of pleasure and fun, but it also involves water safety. Although we cannot supply a full-time lifeguard, we strongly recommend that you implement the following safety rules. These will help provide a pleasant atmosphere for you and your family.

- NEVER jump or dive in an aboveground pool.
- Maintain constant adult supervision when children are in or near any body of water.
- Read all of the safety, installation, and maintenance information contained in the instruction manual and Water Safety brochure before you start installing your pool.

- Ask your city about any specific rules and regulations that apply to aboveground pools.
- Follow the instruction manual and maintenance instructions.
- Never remove applied or posted safety stickers or signs from your pool or pool area.
- Barriers to prevent unsupervised access especially by young children, should be built, installed and checked on a regular basis to ensure they are in good working order.
- Inspect your pool, barriers, alarms, and other related equipment on a regular basis in order to ensure they are in good working order and that they are safe.

The installation, maintenance and safety manual contains detailed tips and recommendations. They must be read, followed and applied on a regular basis, as they will prevent unnecessary accidents and will ensure many summers of pleasant, safe family fun.

SWIM SAFELY AND STAY SAFE
